## **CHAIRMAN'S**

## **MESSAGE**

Ever since the inception of Gulf Dredging, we have dedicated ourselves to the concept of change; we believe that change is the precursor to further development and advancement. Gulf Dredging has always strived to find better ways to serve our customers and present them with superior products and higher quality services.

Having established ourselves as a major contender in the dredging and marine construction fields, we moved on to a more vigorous expansion of our operations in civil and industrial construction works.

The achieved success in our past endeavors and the continuation of this success in our future expansion plans could not be realized without our dedicated workforce.

Recognized by our commitment, dedication, and professionalism, we have become the Clients' preferred choice for dredging and marine services; we intend to achieve the same status in the field of civil and industrial construction. Our strive for better performance continues.

**ABDULRAZZAQ ALOTHMAN**

**Chairman**

## OUR VISION

“GULF DREDGING will become the customers’ first preference Company for Marine and Civil Construction, Dredging, and Offshore services in Kuwait.”

## OUR MISSION

“We are determined to provide complete service to our customers in Marine and Civil construction, Dredging, and offshore works. We are committed to achieving a sustained growth rate by meeting the schedule and quality requirements of our customers. We will provide our value-added services at competitive prices by evolving efficient cost control measures and regular upgrading of our resources.”

## ABOUT US

Gulf Dredging & General Contracting Company K.S.C. (Closed) - GD was established as a Joint Shareholding Company between the Government of Kuwait and Ballast Nedam of the Netherlands in 1975.

Initially, Gulf Dredging (GD) focused on meeting the growing demand for dredging services in and around Kuwait. GD’s fleet of dredging equipment helped it establish a strong foothold in the industry. As the years went by, GD continued to evolve and grow. In 1980, GD made the strategic decision to diversify its operations, expanding into other areas of marine construction.

Today, GD is a leading provider of dredging services, including but not limited to dredging, reclamation, marine construction, bulk cargo transportation, and infrastructure development for various industries. With a wealth of expertise in the industry and resources, the company is dedicated to providing top-notch solutions that satisfy each client’s demands. From navigable canals and port maintenance to environmental cleanup and land reclamation, GD’s dredging services are tailored to assist clients in achieving their objectives safely, effectively, and sustainably. The company takes pride in its dedication to innovation, environmental responsibility, and customer satisfaction and welcomes the opportunity to collaborate with clients to meet their goals. As a specialist contractor in marine and civil construction services, GD’s expertise excels in a wide range of fields.

## BRANCH & PRESENCE

GD has established branches in the Kingdom of Saudi Arabia and the Republic of Iraq, effectively catering to clients’ requirements in these areas. Additionally, GD is active in Qatar and the Sultanate of Oman.

## HEALTH, SAFETY & ENVIRONMENT

GD understands the importance of prioritizing the health, safety, and well-being of its employees and clients and preserving the environment. It considers HSE (Health, Safety, and Environment) a fundamental value and treats it as its management team's topmost priority.

Employees at GD recognize their HSE responsibilities, and the company ensures that they are well-defined and upheld by every team member. HSE is not just a set of rules and regulations; it should be rooted as a culture at all levels of employees.

GD is proud to have its HSE Management System certified to the Occupational Health & Safety Management System with ISO 45001:2018 and Environmental Management Systems with ISO 14001:2015. This certification ensures the operations align with various client regulations and meet all legal requirements. To further solidify the company's commitment to HSE, GD's HSE Policy is developed on the principle that HSE is everyone's responsibility.

The current incident rates indicate GD's excellent HSE performance, and it is proud to have outperformed international standards. The team is well-equipped with a pool of qualified and experienced HSE personnel, along with all the required safety equipment and gear necessary to ensure the safe execution of our operations.

At GD, prioritizing HSE is vital to the success of our business and the well-being of its team and stakeholders.

## QUALITY POLICY

The organization's Quality Policy is a commitment to comply with the requirements of the quality management system and continually improve its effectiveness.

### **The principles of the Quality Policy are:**

- We are committed to provide quality products and services delivered within time and budget, meeting or exceeding customer and applicable statutory and regulatory requirements
- We are committed to continually improve our products and services with active involvement and development of all employees, adhering to the principles of ISO 9001 standard
- The effectiveness and efficiency of our services will be continually improved by measurement, monitoring, providing necessary resources and good working environment

## CERTIFICATIONS

- GD holds ISO certification for its Quality Management System, with accreditation under ISO 9001:2015, ISO 45001:2018 for Occupational Health & Safety Management Systems, and ISO 14001:2015 for Environmental Management Systems
- A member of the International Marine Contractors Association (IMCA)
- An approved Grade-1 contractor for Civil Construction and Grade-II for Roads and Infrastructure works by the Central Agency for Public Tenders (CAPT)
- Approved as a Civil and Marine Contractor by the Kuwait National Petroleum Company
- An approved subcontractor for Seawater Intake and Outfall works by the Ministry of Electricity & Water and Renewable Energy (MEW)
- Saudi Aramco registration approval

## ONSHORE & OFFSHORE WORKS

### Onshore Works

GD, a pioneer and leader in civil construction, specializes in constructing various commercial buildings, industrial structures, and infrastructure projects onshore. The company leverages advanced technology, sophisticated construction equipment, and project management tools to ensure that projects are delivered within the set timeframe while maintaining quality and safety standards.

**The Onshore activities include:**

- Civil & building constructions
- Infrastructure development
- Dewatering
- Piling
- Soil treatment
- Steel structure
- Value engineering

***Shuaiba North Co-Generation (Power/Distillation) Plant - Civil Works, Ministry of Electricity & Water & Renewable Energy***

***Construction of 160 Nos. New Houses in South Ahmadi, Kuwait Oil Company***

## Offshore Works

GD offers various services for offshore construction, including dredging, land reclamation, and marine construction. The company has completed several complex offshore projects using advanced techniques and specialized equipment, delivering excellent results that meet the highest standards of quality and safety. GD's expertise in both onshore and offshore projects has earned it a reputation as a reliable and professional company that offers end-to-end solutions for its clients' construction needs.

### The Offshore activities include:

- Dredging & reclamation
- Construction of ports, harbors & marinas
- Construction of wharfs and berths
- Breakwaters
- Revetment and shore protection
- Offshore pipelines, cables
- Intake/outfall structures
- Hydrographic and topographic survey
- Piling works
- Marine transportation of bulk cargo
- Maintenance services.

## ENGINEERING CAPABILITY

Our in-house Design & Engineering Services Department is a key division for Gulf Dredging. With its competency in design and engineering, we provide our customers with tailor-made innovative, high quality and economically valued solutions. The department undertakes all project-specific detailed design and drawing preparation of civil engineering works utilizing the in-house expertise and the design software like the latest version of Staad Pro.

At GD, the Design and Engineering Services Department is an essential sector that specializes in design and engineering. The department's proficiency in utilizing in-house expertise and cutting-edge design software allows it to undertake all project-specific detailed design and drawing preparation for civil engineering works. It delivers its clients custom-made, ingenious, and cost-effective solutions.

***Design, execution, completion and maint. of Boubyan Seaport project (Phase-1, Stage-2) The Seaport Works, Concrete Pontoon, MPW***

***Coast Guard Stations Umm Bab Marine construction Works, Public Works Authority - Qatar***

## EQUIPMENT DIVISION

GD possesses an extensive array of heavy construction equipment for civil works, including bulldozers, wheel loaders, excavators, dump trucks, auguring equipment, and piling rigs that can drive all types of piles. In addition, the lifting equipment is computerized, and both the equipment and operators have third-party certification. GD has its own berthing facilities at Shuwaikh Port for offshore equipment, bulk material off-loading, and a large fleet of rock-body trucks and trailers for cargo transportation. Moreover, it constructs temporary jetties at any offshore project site as necessary for the loading and unloading of construction material and cargo.

## MAJOR PROJECTS EXECUTED

### ONSHORE:

- Procurement and Construction for Upgradation / Modernization of Gatehouses at MAA & MAB Refineries for KNPC
- Doha Power & Water Distillation (SWRO) Project for MEW
- Design, construction of Chalets and Cafeteria project for MOI
- Construction of 160 new houses project for KOC
- New Gathering Center (GC-30) Project for L&T/KOC
- New Gathering Center (GC-29) project for Petrofac/ KOC
- Manifold Group Trunk Line (MGT GCs 29,30 & 31) project for Petrofac/KOC
- Clean Fuel project – MAB02 project for HHI (FDH)/KNPC
- New Booster Station (BS-171) project for Saipem/KOC
- New Acid Gas Removal (NAGRP) project for Tecnimont/KNPC
- Infrastructure projects for Sabah Al Salem University
- Shuaiba Co-generation project for FISIA/MEW
- Construction of Head Quarter for PAAF
- Construction of administration building for Kuwait Municipality
- Construction of Head Quarter for the high committed for Islamic Sharia, Amiri Diwan

***Doha Power & Water Distillation (SWRO) Project, Ministry of Electricity & Water & Renewable Energy***

**Offshore:**

- Marine Maintenance Services at MAA Refinery for KNPC (CA/CMS/1051) and (CA/4182)
- Maintenance & Replacement of the corroded parts of the Seawater Intake Gates at Subiya Power and Water Distillation Station for MEW
- Operation & Maintenance Support Services for Offshore Facilities-KOC
- Rehabilitation of Berths from 1 to 7 at Shuwaikh Port for KPA
- Shuaiba Oil Pier Repair and Strengthening Works for KNPC
- KNB Marine Construction & Repair at Kuwait Naval Base for USACE
- Rehabilitation of Wave Deflector Seawall at Shuaiba Oil Pier for KNPC
- Dredging of Sea Water Intake Channel at Sabiya Power Station for MEW
- Cleaning of Navigational Channel, Dock and Berths at Shuwaikh Port for KPA
- Design & Construction of Seaside Facilities Ras Al Ard Logistics Station for TOA/USACE
- Maintenance Dredging of Port Basin and Infront of berths at Shuaiba Port for KPA
- Repair works for Shuaiba Oil Pier Structure & Piles for KNPC
- Expansion Program, Package 1 – Enabling and Marine Works for The Scientific Center
- Bubiyan Seaport phase 1, stage 1 project for MPW
- Gas condensate export system project at Al Khafji for Technip/ KGOC
- Design, Build, Piers & Dredging Project at Umm Qasr Port - Iraq for USACE
- Dredging at Subiya power station project for MEW
- Construction of Police Officers Club Marina for MOI
- Az zour LNG Export Facilities for HDEC/KNPC
- New Refinery Package-5 Project for HDEC/KNPC
- Dredging at Doha West Power Station for MEW
- Az zour Independent Water Power Plant phase-1 project for HHI/ Shamal Az zour Al Oula Co
- Supply & replacement of fenders at sea island of Mina Al Ahmadi refinery for KNPC
- Bubiyan Seaport phase 1, stage 2 for HDEC/MPW

***Az Zour North IWPP Project, Az Zour Oula Power & Water Authority***
